

## \*The Opposite of Love\*

What is the opposite of love?

Some would say hate, or anger,

but these are actions, not feelings.

Fear.

Fear is the opposite of love.

Fear is the basis for all bad things.

The reason tough people are tough is because of fear.

They are trying to rise above it.

The more fear they have,

the tougher they have to be to rise above their fear.

Bullies bully because they were bullied.

So stop the cycle.

Give the bully love,

take away the fear.

Sometimes they only need one thing.

A hug.

A small sign of love...
